

HEALTH SAFETY & ENVIRONMENTAL POLICY STATEMENT ISO 45001:2018 & ISO 14001:2015

Hall Longmore is a world class manufacturer of large bore, coated and welded steel pipes. We undertake to implement best practices in our business operations, which will ensure the protection of the environment, health and safety for employees and other stakeholders. Hall Longmore employees, personnel and management are committed to comply and operate a management system in accordance with internationally recognized safety, health and environment management systems at all our operations to continually improve its effectiveness. Hall-Longmore are committed to ensure the consultation and participation of our workers are effective in our system.

We will achieve the outcome by:

- Commitment to protection of the environment. Commitments to protect the environment in addition to prevention of pollution, also include climate change, mitigation and adaptation, sustainable resource use and protection of biodiversity and ecosystems. Prevention of pollution to water and land.
- Prevention of injuries and ill health to Hall Longmore employees, visitors affected and interested parties.
- Commitment to minimize environmental impacts concerning our activities, products and services we shall comply with applicable legal requirements and other requirements which relates to our environmental aspects.
- All process owners shall identify all interested parties and the issue related and associated within their processes.
- Comply with all applicable Health, Safety and environmental legislation relating to Hall Longmore business and operations.
- Promoting occupational health, safety and environmental awareness for all employees through training and education.
- Continuously identify and address hazards in the workplace.
- Continuously reviewing and improve our health, safety and environmental management system for effectiveness and measure performance against objective and targets set.
- Communicate awareness towards the achievement of company objectives and targets for health, safety and environment.
- Communicating this policy to all employees, suppliers, contractors, interested and affected stakeholders and parties. The Safety, Health and Environmental policy is available on the Hall-Longmore intranet and website for all external interested parties.
- Annually reviewing the relevance and appropriateness of this policy.

The boundaries of Hall-Longmore safety, health and environmental management system is restricted to the Wadeville and Duncanville facilities as well as within its operational sites . The following entities operate on Hall-Longmore premises are excluded from the safety, health and environmental management system and/or scope; Tradecore Steel, Barnes Tubing Industries, RSC Mining/ Rocloc, CSP Engineering, HTPS and Barnes Construction.

All levels in the organization are responsible and encouraged to participate in our drive to zero harm from the impact of our business to all employees, clients, suppliers and the community.

K.C van Rooyen
